

AFROTC YOU-CAN-FLY PROGRAM

The AFROTC You Can Fly (AYCF) program was created in 2019 to increase diversity among rated forces through early exposure, education, and flight experience. The program is an introductory flight program for about 900 cadets. Each cadet receives \$3,500 to use at FAA-certified flight schools, achieving an average of 15 flight hours, typically up to their first solo flight. Targeted at AS 100 (freshman) cadets, it offers year-round training on a flexible schedule.

Since its inception, 565 (56%) participants have earned a rated AFSC. 2,231 cadets have participated in AYCF. 1,006 (45%) have met a Rated Selection Board. 565 of the boarded participants (56%) have earned a rated AFSC. 242 of these rated AFSCs (43%) went to cadets from underrepresented demographics.
